

## BIO

Born in Kingston, Jamaica, Dynamite migrated to the USA at 5 years old. Being young and impressionable, this was the perfect time for him to be introduced the sounds of Hip Hop music. At age 14, Dynamite had his first experience of touching Technics 1200 turntables... That was the beginning of a life long musical journey.

Throughout the years Dynamite has worked extremely hard to perfect his skills of mixing Hip Hop music. *"After hearing a radio mix by the legendary DJ Tony Humphries, my eyes and ears were opened to the sound of House Music"* This is the opened mindedness that creates a true versatile DJ. Since his teenage years, Dynamite has rapidly evolved to become that versatile DJ. He has concurred many top venues up and down the East Coast from Connecticut to Miami Beach, mixing music across all musical genres. As part of his drive to constantly improve and progress, Dynamite has stepped into the world of radio broadcasting and is currently a weekend Mixshow DJ on-air for 96.1 The Beat in Colorado Springs, CO.
